

PROPANE GRILL

Includes: 17" x 34" OR 23" x 63" Grill, 2 OR 4 Grates, 2 Drip Trays, Grill Lava Rocks
Options: 20lb or 40lb Propane Tank, Grill Hood

INSTRUCTIONS

STEP 1

All regulator valves on the grill must be in the **OFF** position (horizontal).

STEP 2

Connect hose to propane tank. Tighten counterclockwise and open the valve.

STEP 3

Starting with the far right knob, open the regulator valves on the grill slightly.

STEP 4

Light each burner **CAREFULLY**.

STEP 5

Turn regulator valves on the grill to the desired setting.

AFTER HOURS:

Contact your local branch.

WARNING

It is NOT recommended to use a 20lb propane tank with the 23" x 63" grill.

NOTE

Use a long grill lighter to avoid contact with hands.

Always use a well-ventilated area.

Outdoors is preferred.

PROPANE USE

A 20lb propane tank will last for approximately 5 hours. A 40lb propane tank will last for approximately 10 hours.
